

HAVE YOU EXPERIENCED MULTIPLE CHRONIC HEALTH CONDITIONS DURING PREGNANCY?

*For more information
on the study, please
scan the QR code*

You may be eligible to participate in the *Pregnancy and People with Multiple Chronic Health Conditions* study if you:

- **Are 18 years or older**
- **Have at least two chronic health conditions or disabilities.** This can include: physical and mental health conditions, and/or disabilities.
- **Have had a pregnancy in the last five years.**

**I am interested!
Who do I contact?**

Please contact Jannah Wigle by telephone (647) 691-4122 or email at wiresearch@utsc.utoronto.ca.

What would my participation involve?

You will be asked to participate in a 60-minute interview by Zoom to share your experiences of care before pregnancy, and during pregnancy, labour and birth, and the postpartum period.

What are the benefits of participating?

Sharing your pregnancy care experiences will help us improve services for other people with multiple physical and mental health conditions. If you need any supports or accommodations to participate, these will be provided. You will receive a gift card for participating.
